Proposed- Second Semester Lottery - High School Campus

All parents and students at the high school have been given the opportunity to return to campus as in-person learners. In the last lottery (phase 4), 50 parents replied that they would like their child to be an in-person learner. However, after they were provided a seat, parents of 16 students chose to remain remote. As of today, we have three students that have reached out about returning to in-person learning for 2nd semester.

Lottery process for 2nd semester

- Current in-person learners schedules will be run, because of new classes and new teachers for 2nd semester, and the # of slots available will be determined.
- Parents of Remote Learners will be provided a form to complete if they are interested in their child returning 2nd semester for in-person learning. Those that complete the form will be entered into a lottery.

After the December 15th Board Meeting:

Email form to remote parents - December 15th; response due by December 17th @ 6:00 am; Lottery will be held on December 17th; Parents will be notified by Friday, January 8th.
